Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/580,506	Applicant(s) KATO ET AL.	
	Examiner CHRISTOPHER P. JONES	Art Unit 4132	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I, claim(s) 1-4, 6-10, 12-16, and 20 drawn to a particulate matter-comprising/containing exhaust gas purifying device/filter.

Group II, claim(s) 5, 11, and 17-19 drawn to a particulate matter-containing exhaust gas purifying method.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature. The claimed groups share the following corresponding technical feature: a particulate matter exhaust gas purifying filter with a pair of porous corrugated plates and a porous flat plate that supports an exhaust gas purifying catalyst. JP 2001-276573 [translation] discloses a particulate matter exhaust gas purifying filter (see translation paragraph 1) with a pair of porous (see translation paragraph 1) corrugated plates (see translation drawings 4-6) and a porous (see translation paragraph 1) flat plate that supports an exhaust gas purifying catalyst (see translation drawing 3). Therefore, JP 2001-276573 discloses the corresponding technical feature, and so there is no special corresponding technical feature that links the claim groups. Accordingly, there is a lack of unity among the claim groups, and the restriction requirement between the device and the method is proper.

Art Unit: 4132

5. A telephone call was made to Richard Minnich on 1/21/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

7. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
